Splicetronics Solutions

Splice Tape is used to join component reels and reduce pick & place machine down-time

Advantages:

- Steel clip used with splicing tool and splice tape of any width
- Holes allows the shim to pass through the feeder
- Increase pick & place machine output 5%-30%
- Reduce reel change down-time
- Guarantees a precise connection of reels
- Decrease machine abrasion by reducing the need to reload the feeder

Description:

- Material: Steel
- Actual Size: 20mm x 2.5mm
- Packing: 2000 pcs

STEEL SPLICE CLIP

Instructions:

Use the cutting tool to cut the tape at 90 degrees.	Using the pin guides, mount the steel clip onto the tool. Mount the two reels, center and clamp.
Remove a single strip of single splice tape.	Apply the strip to the top of the connecting reel.

P/N	Category	Qty/Unit
