Splicetronics Solutions

Splice Tape is used to join component reels and reduce pick & place machine down-time

Advantages:

- Cuts component reels for accurate alignment during splicing
- Guarantees a straight cut
- Makes full use of components
- Unique design perfect for trimming carrier tapes

CT210 CUTTING TOOL

Description:

- Contains two rows of placement pin guides to mount component reels

* The Cutting tool is available for pre-purchase evaluation through our tool loaner program.

Instructions:

Use the cutting tool to cut the tape at 90 degrees.	Using the pin guides, mount the brass clip onto the tool. Mount the two reels, center and clamp.
Remove a single strip of single splice tape.	Apply the strip to the top of the connecting reel.

P/N	Category	Qty/Unit
CT210	Cutting Tool	1 pc
