Splicetronics Solutions

Splice Tape is used to join SMT component reels and reduce pick & place machine downtime

Advantages:

- Custom designed with eight hole placement
- Joins reels without the splicing tool and clip
- Significant savings on production costs
- Increase pick & place machine output 5%-30%
- Reduce reel change downtime
- Guarantees precise connection of reels
- Decrease machine abrasion by reducing the need to reload the feeder

8 HOLE DOUBLE SPLICE

Description:

- Backing Thickness (um): 25
- Total Thickness (um): 55±2
- Peel Strength (N/25mm)
- to steel (25mm*20min): 13
- Retention (H) (25mm*25min): >100
- Tensile strength at break (N/25mm): >80
- Elongation at break (%): >90

DSU208 (2pc)

DSU308 (3pc)

Instructions:

Use the cutting tool to cut the tape at 90 degrees.

Strip off the cover paper.

Place the two joining reels on the splice tape.

Fold along the centre and add pressure. Discard the plastic cover.

P/N	Category	Qty/Unit
DSU208	8mm Double Splice 2 piece	500 pcs
DSU308	8mm Double Splice 3 piece	500 pcs

Splicetronics Solutions will allow you to increase manufacturing productivity and reduce operational costs
