## Splicetronics Solutions

*Splice Tape is used to join SMT component reels and reduce pick & place machine downtime*

### Advantages:

- Designed specifically for SMT carrier tapes of 8mm to 44mm
- Ensures that SMT component reels can be joined quickly and securely
- Ergonomically designed for easy handling
- Used with the splice clip and splice tapes of any width
- Economical splicing tool option

### ST110 SPLICING TOOL

### Description:

- Dimensions: 8" x 3" x 1"
- Weight: 1.1lb
- Color: Red Handle
- Longer 5mm guide pins for accurate reel placement
- Includes clamps to secure reels

### Instructions:

	
Use the cutting tool to cut the tape at 90 degrees.	Using the pin guides, mount the brass clip onto the tool. Mount the two reels, center and clamp.
	
Remove a single strip of single splice tape.	Apply the strip to the top of the connecting reel.

P/N	Category	Qty/Unit
ST110	Splicing Tool	1 pc
