Splicetronics Solutions

Splice Tape is used to join SMT component reels and reduce pick & place machine downtime

Advantages:

- Designed specifically for SMT carrier tapes from 8mm to 44mm
- Ensures that SMT component reels can be joined securely and quickly
- Possible to mount tool for table top operations
- Used with the splice clip and splice tapes of any width

ST210 SPLICING TOOL

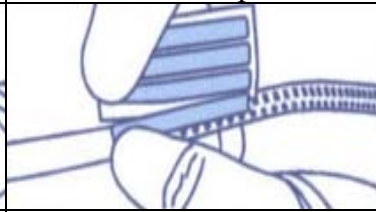

Description:

- Dimensions: 8" x 1" x 2"
- Weight: 1lb
- Longer 5mm guide pins for accurate reel placements
- Brackets to mount tool to a table
- Includes clamps to secure reels

Instructions:

| | |
|--|--|
|  |  |
| Use the cutting tool to cut the tape at 90 degrees. | Using the pin guides, mount the brass clip onto the tool. Mount the two reels, center and clamp. |
|  |  |
| Remove a single strip of single splice tape. | Apply the strip to the top of the connecting reel. |
