

COVER TAPE EXTENDER

Splicetronics Solutions

Part (reel)	Dimensions (pc)	Package
TEC08 (8mm)	396mm x 5mm	500pcs/box
TEC12 (12mm)	396mm x 7mm	500pcs/box
TEC16 (16mm)	396mm x 9mm	500pcs/box
TEC24 (24mm)	396mm x 18mm	250pcs/box

APPLICATION

- Ⓢ Strips of PET tape used as a leader to avoid wasted components
- Ⓢ Perfect for use on partially cut reels
- Ⓢ 32mm-44mm widths available upon request
- Ⓢ All sizes available in 500mm length

ADVANTAGES

- Ⓢ Non-skid cover tape material
- Ⓢ Strong adhesive bond
- Ⓢ Reduce lost components
- Ⓢ Reduce feeder load time
- Ⓢ ESD Safe ($10^{5-10}\Omega$ surface resistance)

INSTRUCTIONS

- Ⓢ Remove the release liner to reveal the adhesive side.
- Ⓢ Align with the front edge of the carrier tape.
- Ⓢ Stick the complete adhesive strip onto the component cover tape and press firmly.
- Ⓢ Feed the non-adhesive side into the feeder.
